**Best of Luck**  
**Dr Ayman Elhalafawy**

**Attempt the following questions:**

**I- Read the following passage and answer the questions below: (25)**

Little is known about William Shakespeare's childhood. He was born in the English city of Stratford-upon-Avon about 100 miles northwest of London in 1564. William's father was a successful leather merchant who once held the public position of alderman. He was the third of six children including two older sisters and three younger brothers. Growing up in Stratford-upon-Avon William lived in a house with his big family on Henley Street. He went to the local grammar school where he learned about poetry, history, Greek, and Latin. When William turned eighteen he married Anne Hathaway. Anne was eight years older than William. They soon had a family including a daughter named Susanna and twins named Hamnet and Judith.

Many of Shakespeare's greatest plays were written in the last half of his career. These plays included *Hamlet*, *Othello*, *King Lear*, and *Macbeth*. His success in the theatre, as well as his investments in land and the Globe, made Shakespeare a wealthy man. He purchased a large home in Stratford for his family called New Place.

Shakespeare also became famous for his poetry. His most famous poem of the time was *Venus and Adonis*. He also wrote poems called sonnets. A book of 154 of Shakespeare's sonnets was published in 1609. William retired to his home in Stratford and died on his fifty-second birthday. Shakespeare is considered by many to be the greatest writer of the English language. He is also one of the most influential. Through his works, he is credited with introducing nearly 3,000 words to the English language. In addition, his works are the second most often quoted after the Bible.

- 1- Give a suitable title to the 1<sup>st</sup> paragraph.
- 2- How many words in the 2<sup>nd</sup> paragraph?
- 3- Is the 2<sup>nd</sup> paragraph written in British or American English?
- 4- How many sentences in the whole passage?
