**1- Read the following passage then answer the questions below: (20 marks)**

English is widely regarded as the language of higher education. Oxford, Cambridge, Harvard, and the Massachusetts Institute of Technology are just a few of the famous universities that occupy the lofty heights of the top of the world education league tables, and you will need to speak English fluently for access to any of these, as they are all English-speaking. If English is not your native language, you will need to take an English test during the admissions process to prove that your level of English is up to scratch for the demands of the academic environment.

If you learn English, you will be able to enjoy works by some of the world's most famous writers, in the language in which they were intended to be read or heard. The works of Shakespeare will take on a new meaning when you are able to speak English, and you can look forward to enjoying such influential classics as Emily Bronte's *Wuthering Heights* and her sister's *Jane Eyre*, George Orwell's *1984* and *Animal Farm*, Jane Austen's *Pride and Prejudice*, and many, many more. Translation rarely does a writer true justice, so the only way to appreciate a classic literary work properly is to read it in its original language.

**A- Answer the following questions:**

- 1- Why should we learn English? Mention three reasons.
- 2- How is English the language of great literature?
- 3- What is the role of English in international sporting events?
