

كلية العلوم
المستوى الثالث (رياضيات)
المرونة 1

تناول احدى الموضوعات الاتية:

- 1- The theory of stress and application .
- 2- The compenent of principal of stresses.
- 3- The Cauchy`s stress surfaces and application.
- 4- The theory of strain and application.
- 5- The extensional strain and application.
- 6- A compatibility conditional and application.
- 7- Stess- strain relation and application.
- 8- Ageneralized hoke`s law and application.
- 9- Isotropic media and application.
- 10- Solve the general equations of theray of elasticity in distances.

مع اطيب التمانيات بالنجاح
