

الأبحاث المطلوبة من طلاب الفرقة الثالثة لماده الفيروسات للترم الثاني من العام الجامعي 2019-2020 كالتالي :-

1- Infectious Bronchitis virus with special reference to:

Classification, morphology, structure, physical & chemical characters, antigenic characters, pathogenesis, transmission, vaccination programs and public health importance.

2-Foot and Mouth disease virus with special reference to

Classification, morphology, structure, physical & chemical characters, antigenic characters, pathogenesis, transmission, vaccination programs and public health importance.

3- Rift Valley Fever virus with special reference to

Classification, morphology, structure, physical & chemical characters, antigenic characters, pathogenesis, transmission, vaccination programs and public health importance

4- Equine Herpes viruses with special reference to

Classification, morphology, structure, physical & chemical characters, antigenic characters, pathogenesis, transmission, vaccination programs and public health importance

5-Infectious Bursal disease virus with special reference to

Classification, morphology, structure, physical & chemical characters, antigenic characters, pathogenesis, transmission, vaccination programs and public health importance.

6-Family Orthomyxoviridae with special reference to

Avian Influenza virus, morphology and structure, antigenic changes, replication and types of vaccines of AIV.

7- Family Paramyxoviridae with special reference to

Newcastle Disease virus, morphology and structure, antigenic characters, diagnosis and economical importance of NDV.

8- Family Rhabdoviridae with special reference to

Rabies virus, morphology and structure, replication, diagnosis and types of vaccines of Rabies virus.

9- Family Poxviridae with special reference to

Lumpy skin disease Virus, morphology and structure, antigenic relationship, diagnosis and types of vaccines of LSDV.

10- Respiratory viral diseases in Chickens with special reference to

Morphology and structure, replication, antigenic characters and differential diagnosis between them.

برجاء التكرم من سيادتكم باتخاذ اللازم

وتفضلوا سيادتكم بقبول فائق الاحترام...
